

066: Responsive Blog Website-1

After-Class Assignment: Bloggie Part 1

Introduction

In the last class we started creating a Travel Blog Website. Based on your hobby, your task is to start creating your Blog website. You will complete this website in 5 parts.

Description

Choose a topic - Food, game, music etc and start creating your own Blog website. You can use your name as the brand name.

In this assignment you will add the navigation menu of your website.

Steps to follow

1. Open Brackets on your system.
2. Create a new folder named Bloggie Part 1-*yourname*.
3. Create a new HTML file. Do not forget to add Viewport and the Bootstrap link.
4. Click [here](#) to get the Bootstrap link which is to be added.
5. Do not forget to save the files.
6. Open [Google drive](#).
7. Upload your folder and make it accessible to Anyone.

Hints

The image shows a horizontal navigation bar with a light gray background. On the left, the text "SERIOUS FOODIES" is displayed in a bold, uppercase font. To its right, there are four links: "About", "Recipes", "Gallery", and "Contact", each separated by a small gap.

The above image is for reference. Here we are creating a Food Blog. Use your creativity to complete the task.

Your creativity is your independence. Add any design component that you want but make sure you do not get deviated from the focus.
